Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 4-11 and 13-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Woo (Woo et al., US 6,620,688).

Woo discloses a semiconductor wafer (Figs. 2, 4 and 10), comprising: a substrate (202 and/or 200) with a first region (directly under the plug portion of 238), a second region (directly under the plug portion of 236), and a third region (between the first and second regions) horizontally defined on the surface of the substrate; and

a capacitor disposed on the substrate, the capacitor comprising: a first electrode (232; polysilicon) in the first region and the third region; a first isolation layer (215; a silicon oxide) on the first electrode, the first isolation (215) covering a portion of the first electrode in the third region and the substrate in the second region, but not covering the first electrode in the first region; a second electrode (234; polysilicon) on the first isolation layer, the second electrode covering the first electrode in the third region and covering the substrate in the second region; a second isolation layer (216) covering the

capacitor and the substrate; a first contact plug (at least the plug portion of 238) located only in the second isolation layer and electrically connected to the first electrode; a second contact plug (at least the plug portion of 236); and, a field oxide layer (218).

### ***Response to Arguments***

Applicant's arguments with respect to the claims rejected above have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
